Set Contents

Unit:

Ju-187 Tactical Bomber x1

TDPEE 1.0 Ju-187 Tactical Bomber

The Ju-187 was designed as a replacement to the Ju-87 "Stuka" dive bomber. Improvements were made to the armor and armaments of the new aircraft. Two 20mm, one 15mm and a 13mm cannon were added. The tail section of the aircraft could rotate downwards to improve the field of fire for the rear turret. The project was cancelled before any prototypes could be tested.

Ju-187

Unit	Attack	Defense	Move	Cost
<i>Ju-87</i>	8(2)*	5	4	11

* Interception Combat

Axis & Allies 1940

Ju-187

Unit	Attack	Defense	Move	Cost
<i>Ju-87</i>	4	3	4	11

Availability: Turn 7.

Designer notes

The Ju-187 is an advanced tactical bomber. The statistics reflect its improvements which give it better survivability to fight another day and better interception value.
